

Creasey teams

A teams event running throughout the year from October. Held on the first Thursday of every month.

Prize money: per team-- first £60; second £40; ascenders £20 (the number of prizes and amount may vary depending on number of teams qualifying)

- There will be 4 prime members in each team and each member must play at least once with each other prime member of the team.
- Over the year the 7 best results for each team will be calculated to give final positions.
- Prime team of 4 people to be announced at beginning of the year, replacement to this team allowed if a member leaves the team permanently that year for any reason.
- Reserves or substitutes can be brought in when necessary. However if less than 2 of the 4 prime members are playing then the result cannot count towards the Creasey team competition. Substitutes may be used as often as needed and not being permanent members of the team may be used by other teams as required.
- Non club members may play in the first Thursday teams, but the results cannot count towards the Creasey team results as non-club members cannot play in club competitions.
- Anyone not involved in the competition is entitled to make up teams to play in any of the first Thursday contests.
- Scoring to be done in imps then converted to VP's, and positions on the ladder to be calculated in percentages of available victory points.
- Prizes will be awarded at the AGM for 1st and 2nd places and there will be an ascenders prize for the team that has most improved its position between 6 and 12 months and have not come first or second.
- There will be no entrance fee for the competition beyond normal table money.

Re-Drafted July 2011
